

A MESSAGE FROM THE ADMINISTRATOR

The vision of the Montana Occupational Safety and Health Training Institute remains centered around the conviction that formal training and education must be linked to and made accessible to all Montana employers in order to bring about positive change.

Both public and private sector employers from all regions of the State, regardless of their size, have the opportunity for occupational safety and health training through the Institute. Courses offered by the Training Institute provide assistance to employers to comply with the existing safety and health requirements, to improve safety culture within their work place and to create a broader impact on reducing workplace injuries and fatalities. This not only improves the work environment for employees, but also contributes to lower workers compensation premiums for employers.

Since 1999, the Training Institute has had the unique pleasure of awarding thousands of certificates of attendance to employees. Numerous employers and employees in Montana and surrounding states have achieved a higher level of safety awareness and increased productivity due to the training and education the Institute provides.

I encourage all Montana employers and employees to take advantage of this excellent resource. Working together, I know we can make Montana workplaces the safest in the country!

Jerry Keck

A handwritten signature in cursive script that reads "Jerry Keck". The ink is dark and the signature is fluid.
